Date: 26/10/2023

Property Address: 63 Deal Street, Wigram, Christchurch

Thank you for your request for a rental assessment for the property mentioned above.

Please note that this assessment has been conducted solely based on the information or/ and images provided to me, as no physical inspection of the property has taken place.

To determine the appropriate rent for this property, I have conducted a thorough market comparison with other similar properties that are currently available for rent or have been successfully rented in the past. Additionally, I have referred to the statistics from the Ministry of Business, Innovation and Employment Bond Centre to gather information on properties rented in this suburb over the past 12-month period.

Based on my analysis, I believe that the current rental market rate for this property, rented on an unfurnished basis, and with an appropriate marketing programme, should be within the range of **\$550 to \$580** per week. However, please note that this assessment is only an indication of what the property could potentially be rented for in the current market, and it does not constitute a formal valuation.
